

Calgary Zone Online Supply Directions

You have the opportunity to acquire and practice psychomotor skills needed for intravenous therapy *prior* to the start of clinical. If you are interested in increasing your competency you can practice priming lines and reconstituting medications at home. Place an order using the following instructions. ***Before you order you must know where you are placed for NURS 401. Clinical supplies for Calgary and Edmonton are different.***

Calgary Placement Instructions:

Please email cmat@athabascau.ca to order supplies. You will need to provide your ID number, name, address and a payment method.
